Re: **Report on 2010 UIC Exit Survey**

### **Introduction**

For the past eight years the University of Illinois Alumni Association (UIAA), in cooperation with the UIC colleges, has managed the only campus-wide Exit Survey conducted with graduating students. The information collected provides the University with an overview of student satisfaction and garners current addresses and other contact information, which is loaded into the Foundation and Alumni Constituent Tracking System (FACTS). The preferences reported by graduates help the UIAA and colleges to plan alumni programs. This year, we upgraded our survey system and used the Qualtrics Survey Data program to collect responses. Information from this survey will be posted (as are past reports) on the UIC Data Research and Institutional Analysis (DRIA) website at [www.dria.uic.edu](http://www.dria.uic.edu).

### **Sample Size and Process**

This report includes data from students who graduated in the spring of 2010; approximately **3,954** students were candidates for graduation. Students were sent several e-mail messages by the UIAA and their respective colleges and could access the Exit Survey online using their UIN. The Qualtrics system allowed us to uniquely identify each respondent. A total of **3,290** responses were received, representing a **83%** response rate (the highest response rate we have ever received). This represents an increase of 16% from 2009\* and a 28% increase from 2008\*. Following is an Executive Summary with appendices as shown below.

**Appendix A** - Copy of the Exit Survey (*Please note that since no paper copies were distributed, this is a copy of the questions but not how the survey appeared.*)

**Appendix B** - Report on Future Plans & Overall Satisfaction

**Appendix C** - Interest in Future Programs and Services

**Appendix D** - Information on Advocacy, Family Legacy and Ethnicity

## **EXECUTIVE SUMMARY**

### **Exit Survey (Appendix A)**

A copy of the Exit Survey is attached. Of the 3,290 responses received:

- 2024 earned Bachelor's Degrees (61.5% of responses)
- 882 earned Master's Degrees (26.8% of responses)
- 384 earned Doctorate Degrees (11.6% of responses)

### **Future Plans & Overall Satisfaction (Appendix B)**

1. More than 40% of those who responded have secured full-time employment; 22.24% plan to pursue advanced educational opportunities; and 28.13% are currently job searching.
2. A significant majority of those who responded were pleased with their UIC academic experience. More than 74% of the respondents rated their overall experience as either "positive" or "extremely positive." More than 80% of graduates indicated a positive or extremely positive experience at the departmental level, compared to 75% "positive" or "extremely positive" reported in 2009.

### **Interest in Programming & Services (Appendix C)**

1. The data collected shows that networking is the area of most interest to graduates (65.64%). The second and third most requested items were continuing education (63.98%) and career counseling (57.57%). The UIAA offers programs in the first and third areas, and frequently partners with the colleges and the School of Continuing Studies to promote their continuing education offerings to alumni.
2. Nearly 40% of graduates expressed interest in receiving the *UIC Alumni Magazine* or their college magazine, underscoring their continued preference for print publications. To meet the needs of those preferring electronic communications, the office of UIC Alumni Relations created a Facebook fan page and continues to publish the monthly "UIC Spark" e-newsletter. More than 40% of the respondents expressed interest in college activities and 29.59% were interested in regional activities. Twenty-eight percent of graduates indicated interest in attending UIC athletic programs.

### **Advocacy/Legacy/Ethnicity (Appendix D)**

In a continued effort to enlist all alumni as advocates for the University, the new graduates were asked to participate in the UIAA advocacy program, Illinois Connection. More than 900 of them expressed interest in joining Illinois Connection and have been sent additional information.

In order to continue to enhance the FACTS database, graduates were asked if they had family members who attended or are attending University of Illinois campuses. Thirty-five percent responded "yes." Of those, 25.23% indicated at least one additional family member as an attendee or graduate.

## Student Involvement

Information on student involvement in campus groups and organizations was also collected. (Individual requests for this detailed information can be submitted to the UIAA). Once the graduation process is complete and graduation files are uploaded into FACTS, this survey information will be accessible in the coding fields.

## **Conclusion**

We are very pleased with the 83% Spring 2010 response rate and the information received will help us plan more strategically. We appreciate all of the assistance from the colleges that helped us collect this important data for the campus.

The survey will remain open throughout 2010 to collect data from our 2010 summer and winter graduates. If you have any questions regarding the information in this report, please contact Caryn Korman at 312-996-6330 or caryn1@uic.edu.

*\*Please note – 2009 & 2008 data included all data from the AY (including the winter graduation data) from those two years.*
